# STEP 1

# COLUMN

**IMPORTANT:** Do not pull excessively on cable – doing so may result in accidental actuation of column.

# STEP 2

# MOUNT

# STEP 3

# WORK SURFACE

1

2

Slide utility tray onto work surface. Utility tray simply rests on top of work surface.

i

**IMPORTANT:** Tighten bolts evenly. Work surface clamp should sit flush against the column, ensure there are no gaps. Also, it is important the work surface clamp is level.

# STEP 4

# CENTER BEAM

**i**

**IMPORTANT:** Tighten bolts evenly. The beam should sit flush against the column, ensure there are no gaps. Also, it is important the work surface clamp is level.

# STEP 5

# EXTENSION BEAMS

# STEP 6

# MONITOR TILTER

## STANDARD TILTER & SPRING TILTER

## QUICK RELEASE TILTER

## FINE TUNE HEIGHT ADJUST TILTER

# STEP 7

# MONITOR CUPS

1

2

# STEP 8

# CABLE MANAGEMENT

1

2

# HEIGHT ADJUSTMENT

## **i** Is your height adjust button not working? If so, make the adjustments below.

- 1 Slide workstation so that the work surface hangs over desk edge to allow access to underneath the work surface.
- 2 Loosen the two screws as shown.
- 3 Slide bracket in the direction shown and tighten screws.
- 4 Test height adjust button – readjust by repeating the steps above as necessary.
