### Removable mounting tray
with hook-on installation & quick release/attachment mechanism

### 6mm padlock hole
for added security

### Generous mounting area
273 x 420 mm with universal mounting hole pattern

### Security screws

**10 year warranty**

Digital Signage mounting solutions

# Media storage sliding panel

## Important:

The media storage panel's depth when attached to the wall is 18mm.
When choosing a compatible display bracket and mounting arrangement, consider the depth of the equipment attached to the sliding panel to allow for free sliding movement.
The total **minimum distance from the wall to the back of the display** is a sum of the following dimensions:
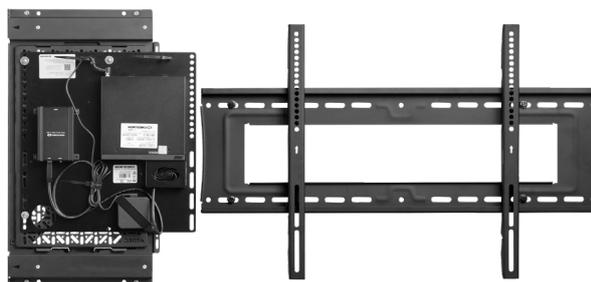

**B (minimum) = A + C + D**

**A:** depth of the tallest device attached to the sliding panel
**B:** clearance of 3mm recommended to allow for variances
**C:** depth of the sliding panel (18mm)

### AD-AC-PS with UC-C100-Z Crestron Flex Video Conference System

### AD-AC-PS with Logitech Rally Plus & Swytch

### Ordering AD-AC-PS
